CELEBRATING INDIAN HERITAGE MONTH

M A Y 2 0 2 4

Indian Heritage Month in Trinidad and Tobago is celebrated annually in May, marking the arrival of the first Indian indentured labourers to the island on May 30, 1845.

In commemoration of this historic event, the National Council for Indian Culture of Trinidad and Tobago (NCIC) hosted their 2024 Heritage Festival at the Divali Nagar in Chaguanas from May 4 - June 1.

Within the month in question, a series of activities were planned that showcased our country's vibrant East Indian cultural traditions, art forms, and culinary delights. Some of the events that were held included a heritage month food festival, a night of traditional chutney music, Indian traditional dance performances, an artisan market, an Indian inspired art exhibition and a grand show that included all of the aforementioned elements.

The objective of the activities were to emphasize the importance of preserving and cherishing the diverse traditions brought to our beautiful Caribbean islands by our Indian ancestors. Indian Heritage Month also intends to promote an appreciation of the impact of Indian culture to our modern day society amongst the wider population and to visitors alike.

NCIC'S VISUAL ARTS EXHIBITION

MAY 18 - JUNE 1

A key part of culture can be found in the expressions of art. Art often exudes the intrinsic feelings, connections, and emotions attached to our existence as a people, directly representing and shaping our national identities. It is with this sentiment in mind that officials of Tourism Trinidad were elated to visit and capture the dynamic range of artistic cultural works on display at the National Commission for Indian Culture's (NCIC) Visual Arts Exhibition. The exhibit, which was formally launched on Sunday, May 18, 2024, at the Divali Nagar, closed officially to the public on June 1.

At the exhibition, several works of art were on sale from very a very talented group of established and upcoming Trinbagonian artists. Should persons be interested in purchasing any of the works of art that were on display at the exhibition, feel free to contact representatives at the NCIC via telephone at (868) 671-6242.

Tourism Trinidad is proud to showcase our dynamic culture through our various online platforms in collaboration with our stakeholders.

TRINIDAD AND TOBAGO SUCCESSFULLY HOSTS ICC MEN'S T20 CRICKET WORLD CUP MATCHES

Tourism Trinidad, in collaboration with SporTT, are thrilled to have facilitated the tournament experiences for the recently concluded ICC Men's T20 Cricket World Cup matches held in our beautiful country of Trinidad and Tobago, from 12 - 16th June, 2024. With five games being played at the Brian Lara Cricket Academy in South Trinidad, inclusive of a semifinal, fans were treated to memorable tournament experiences throughout the duration of the competition here.

The entertainment, which was executed both at the entrances and in-stadia consisted of traditional carnival characters, tassa drummers, rhythm section music, dancers and carnival masqueraders. The jubilant crowd were also particularly moved by an emotional rendition of the West Indies anthem entitled, *"Rally Round the West Indies"*, that was performed by the legendary singer, David Rudder.

Tourism Trinidad also gave four lucky fans the chance to see the games live through a fan engagement competition that was conducted via our social media platforms. We wish again to extend our congratulations to the winners who are Jenny Lin, Kezia Stanislaus, Tiana Dookhoo, Joseph Mahabir and Rodney Ramroop.

SKY'S THE LIMIT

TRINIDAD AND TOBAGO AND THE STATE OF QATAR SIGNS AIR SERVICES AGREEMENT

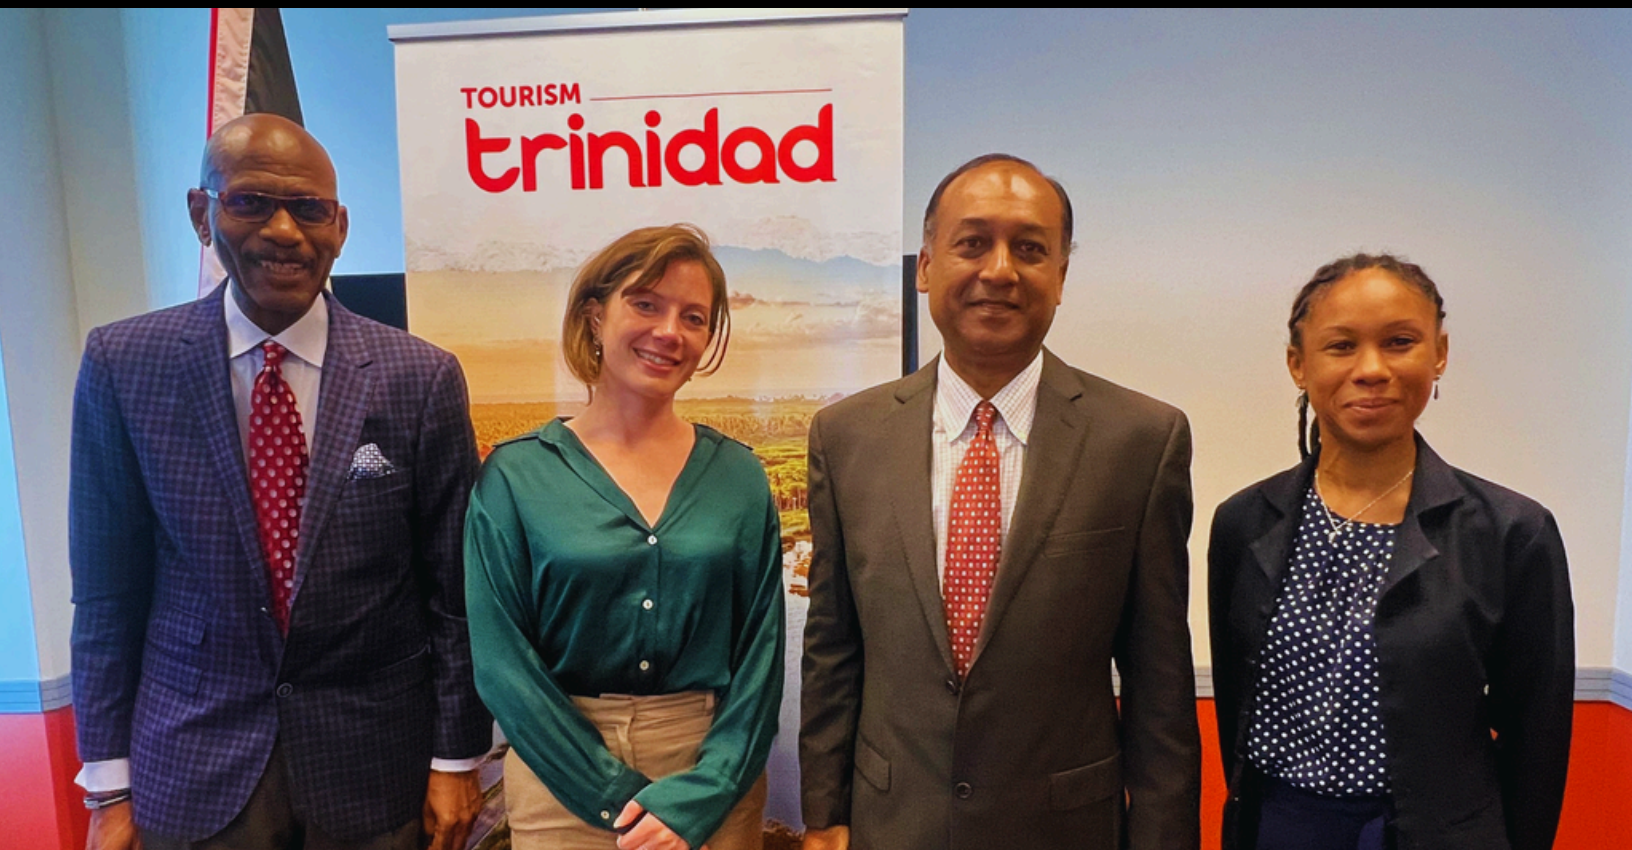

On Thursday, May 23, 2024, Senator the Honorable Rohan Sinanan, Minister of Works and Transport, and His Excellency Jassim Saif Al Sulaiti, Minister of Transport, signed a bilateral air services agreement between the Republic of Trinidad and Tobago and the State of Qatar that would see a new era of travel, as it is set to promote greater connectivity and increased accessibility between the two States with the commencement of non-stop or one-stop services.

Other than further growing our local aviation, tourism, and trade industries, this strategic decision also presents the opportunity to strengthen diplomatic, cultural, and educational ties between Trinidad and Tobago and the State of Qatar.

While in Qatar, the Airports Authority of Trinidad and Tobago also received a commemorative award that recognized the role that our national airports have played in helping to foster improvements in the areas of safety aerodrome operations, supporting airport staff, and ensuring the safety of passengers.

The Ministry of Works and Transport Trinidad & Tobago continues to deliver on its mandate to provide greater opportunities for air travel while bolstering the social and economic development of the country.

EXPANDING NETWORKS: TOURISM TRINIDAD FACILITATES COURTESY CALL WITH THE FALKLAND ISLANDS

On Wednesday, May 22, 2024, the Chairman of Tourism Trinidad Limited, Mr. Cliff Hamilton, received a courtesy call from the Honourable Teslyn Barkman, Member of the Legislative Assembly of the Falkland Islands, to discuss possible tourism-based collaborations in the near future that would benefit both entities.

Tourism Trinidad in its remit to market and promote the offerings of our destination is always open to expanding our networks and fostering relationships that are lucrative to our destination.

Also present at the meeting were Mr. Andre Blackburn, Political and Press Officer at the British High Commission; Mr. Cornell Buckradee, Manager of Investment and Business Development at Tourism Trinidad (current Interim CEO); Ms. Shaneil Sutherland, Manager of Destination Development; and Mr. Kheegon Daly, Stakeholder Relations Officer.

PROTECTING OUR OCEANS

THE INSTITUTE OF MARINE AFFAIRS

The Institute of Marine Affairs (IMA) is mandated to conduct interdisciplinary research focused on coastal, marine, and environmental studies in Trinidad and Tobago. Established under the provisions of an Act of Parliament, the IMA has been operational since 1978. Its primary mission is to provide scientific research and advice for the sustainable management of the nation's coastal and marine resources. The organization plays a pivotal role in advising the government on policies related to these areas and aligns its activities with national development plans and the Sustainable Development Goals (SDGs).

The IMA operates through five main research programs:

1. **Biodiversity and Ecology:** Conducts research on wetlands, coral reefs, benthic communities, and invasive species. Projects include long-term monitoring of coral reefs and seagrass communities to assess environmental impacts such as climate change.
2. **Fisheries and Aquaculture:** Focuses on fisheries biology, aquaculture, and marine turtle conservation. Research supports sustainable fishery practices and explores mariculture as a means of economic diversification.
3. **Oceanography and Coastal Processes:** Research areas include oceanography, sedimentology, coastal dynamics, and engineering. Projects like the Coastal Conservation Project monitor beach dynamics and impacts on coastal development.
4. **Environmental Quality:** Monitors water and sediment quality in coastal and marine environments, assessing pollutants and their effects to support pollution reduction strategies.
5. **Geomatics:** Supports research with Geographic Information Systems (GIS) and Remote Sensing, contributing to projects such as spatial data management for watershed monitoring and the development of the Caribbean Marine Atlas for Integrated Coastal Zone Management.

Through these programs, the IMA aims to generate scientific data and recommendations that inform national policies, contribute to sustainable development goals, and promote the conservation and responsible use of Trinidad and Tobago's marine resources.

BACK TO SCHOOL

TOURISM TRINIDAD LEADS PUBLIC EDUCATION DRIVE

Tourism Trinidad Limited had an amazing time at Morvant New Government Primary School's Career Day which was held on Friday 21 June, 2024! This was an initiative under the Ministry of Education to expand efforts to create an atmosphere that fosters education and growth within schools and the community.

Officials of Tourism Trinidad were inspired to engage with the bright young minds of tomorrow about the wonderful world of tourism. Public Relations Specialist, Ms. Shadae Allen gave an interactive session where she shared insights into the diverse opportunities in the tourism industry, from hospitality to eco-tourism and everything in between.

We wish to thank the Management and Staff at the Morvant New Government Primary School for inviting us and all the enthusiastic students who participated in this session. Tourism Trinidad remains committed to providing opportunities for raising awareness and sensitization of the tourism marketing portfolio.
